

Important facts

Chronic Condition Management Plans (CCMP)

Your GP will decide if you fulfil Medicare Australia's eligibility requirements, prior to preparing a CCMP.

The time required to prepare a plan will vary and depend on how complex your needs are.

If you would benefit from seeing other health professionals to manage your condition, you may be eligible for a total of 5 Medicare rebates with 'Private' allied health services per calendar year.

Health Care Services provided by 'Public' Hospitals and 'Public' Allied Health Providers are not eligible for a Medicare rebate. Public providers can of course be included as part of your health care team.

Your GP will offer you a copy of the plan whenever there are changes to your care.

SMS Reminders

If you agree to receive SMS reminders when you are due for a review, you will receive a SMS advising that you have a health message from our practice.

These are secure messages which will ask you to verify your identity by entering your name and date of birth.

You will then see the reminder for the service which you are due.

To make the appointment give our friendly team a call.

Your ProActive Health Team

You

Your health goals and own steps towards managing your chronic condition/s.

Usual GP

Assists you to set achievable health goals, plans and organises your treatment and services, regularly monitors your progress and updates your careplan to meet your health needs.

Practice Nurses

Assist your GP to assess your needs and prepare your careplan and referrals.

Practice Admin

Remind you of services when they are due and coordinate your appointments.

Care Providers

If you are referred to care providers, they will assist you with managing your condition

Chronic Condition

Management Plan (CCMP)

What is a CCMP?

A CCMP involves your doctor creating a written plan of management in consultation with you. This plan will help you manage your chronic and complex condition/s.

Why should I have a CC Management Plan?

A CCMP gives you and your GP a better understanding of your care needs. The plan will coordinate the care you receive more effectively, particularly when you have a number of health professionals involved in your care.

Who is eligible for a CC Management Plan?

Your GP will determine your eligibility by taking into account your current medical conditions and health care needs. Please discuss with your GP.

What happens if I am eligible?

Your GP will work with you to develop a plan to suit your health care needs and will include your health problems, your goals and other health care services that you need.

How often should this be done?

They can be prepared yearly. Reviewing a CCMP is just as important as preparing it. A review of your plan will usually take place 6 months after the plan started. Earlier reviews can be arranged if your condition changes significantly.

Referrals to other Providers

What does it mean?

After preparing your CCMP, your GP may identify that you could benefit from the input of other health care providers. In this case, your GP may refer you to them.

Your GP will ask the relevant health providers to work to develop a plan based on your care requirements.

How often do I need to be referred?

The Providers assisting you manage your condition will require a referral from your GP at least once every 18 months.

Are there Medicare rebates?

People with a CCMP who have been referred to another provider are eligible for 5 Medicare Rebates per calendar year for services provided by other 'Private' Health Care Professionals. The health care professionals must be registered with Medicare Australia before Medicare will rebate the service. Medicare has to approve the claim made by your GP before you can use your rebates for services rendered with allied health professionals.

"Private" health care professionals who may be part of your care:

Listed below are 'Private' Health Care Providers that can be nominated by your GP and can provide services to you, and be eligible for Medicare Rebates.

The list does not include services delivered by public hospitals or providers funded by the Government.

- Aboriginal health worker
- Audiologist
- Chiropractor
- Chiropodist
- Diabetes Educator
- Podiatrist
- Exercise physiologist
- Mental Health Worker
- Occupational Therapist
- Osteopath
- Physiotherapist
- Dietitian
- Psychologist
- Speech pathologist

CCMP Fees

Generally the Gap you will pay, if any, will be the same as for a normal consult.
